

Abdoulaye Doucouré

Email : ablodoucoure@gmail.com

Web : <http://www.sam-ptf.com/>

Abdoulaye Doucouré (Dr) is a Senior Research Scientist at Hollingsworth & Vose, headquartered in East Walpole, Massachusetts.

He holds a PhD in Materials Chemistry obtained from the Ecole Nationale Supérieure de Chimie de Montpellier, at the Université de Montpellier-2 in France

He has 18 years of industrial experience in research applied to filtration processes and membrane technologies. His work studies non-woven materials and nanofibers applied to filtration, as well as surface modification and thin film technologies.

Abdoulaye Doucouré is an expert in the field of water treatment and filtration applied to biological and industrial fluids.

He is also author of two patents and more than 30 scientific publications.

He is a research associate and an instructor at the Université des Sciences, des Techniques et des Technologies de Bamako and at the Ecole Nationale d'Ingénieurs A.B. TOURE of Mali.

Abdoulaye Doucouré has been actively involved in the voluntary sector for 25 years and is interested in exchanges of scientific research and cultural technology between Africa, North America and Europe

Professional Affiliations

- African Membrane Society (President, from 2014)
- Maliwatch (Manager, Sciences & Technologies, from 2012)
- International Nonwovens & Disposables Association, INDA -Filtration (Membre of steering Comite, froms 2012)
- Malian Society of Applied Sciences (Membre from 2000)
- American Chemical Society (Membre from 1997)
- American Association for the Advancement of Science (Membre from 2004).
